

# Rising Grade One Summer Work

Dear Kindergarten Families,

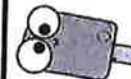

It is hard to believe the children have completed an entire year of Kindergarten here at NSCS. They have worked hard and grown so much in all areas. We want to continue the progress. One of the ways to do this is through summer work.

In this packet of summer work you will find calendars with activities to strengthen a variety of skills. Please choose 3 a week from both the reading and math calendars. There is a popsicle grid for keeping track of reading and a writing journal. Please complete all pages and sign and return the packet on the first day of school.

Thank you for your help in partnering with our school.  
Have a wonderful summer!

Blessings,  
Deb Firicano
